CLINICAL SEXOLOGIST
PSYCHOSEXUAL THERAPIST
SPEAKER & MEDIA COMMENTATOR

SIGNATURE TALKS & THE EROTIC INTELLIGENCE PROGRAMME

- **The Erotic Intelligence Programme** - a three-pillar journey (Intimacy Audit, Transformation, Integration) taking individuals and couples from where they are to where they want to be, erotically and relationally. Delivered as 1:1 clinical work, workshops and day retreats.
- **Sexual Scripts:** Where our beliefs about sex come from - unpicking the inherited, cultural and family narratives that quietly script adult sexuality and how to rewrite them.
- **Desire, Kink & Consent** - a grounded, non-judgemental look at what desire actually is, how it varies and what genuine consent requires beyond the basics.
- **Reigniting intimacy after illness, trauma or life transition** - practical, compassionate tools for rebuilding physical and emotional closeness after disruption.
- **Modern Relationships: Non-monogamy, identity & change** - how relationship structures are diversifying and what that means for therapists, partners and families alike.
- **The cost of silence** - why avoiding sexual and relational conversations is rarely neutral and what changes when clients are given permission to speak plainly.

ABOUT LULU

Lulu Sunnucks is a COSRT-registered clinical sexologist and BACP - registered psychotherapist, working with individuals, couples and groups from her Cotswolds practice and within a NHS Sexual Health Clinic.

She is the founder of LS Psychotherapy and the creator of The Erotic Intelligence Programme, a three-pillar clinical framework taking clients from audit, through transformation, to lasting integration in their intimate lives.

Most conversations about wellbeing skip straight past sex and desire, as though the erotic were a separate, lesser room in a person's life. Lulu's work starts from the opposite premise: that intimacy, arousal, identity and relationship are woven through everything else; mental health, confidence, ageing, grief, even ambition and that avoiding the subject rarely makes it quieter.

She works across a broad clinical range including kink, polyamory, consensual non-monogamy, LGBTQ+ identity and relationships, sex workers, trauma and the everyday mismatches that quietly erode long relationships. She brings the same directness to retreats, panels, press commentary and consultancy work.
